Dear Michele: Please provide a legal review of the following to add to OCR response to CARE. This addition was requested by Enrique and Kerry. Thanks in Advance, Jackie

From January 2016 to December 2018, the Navy hosted a total of ten community meetings and presented at nine established Bayview public forums. Of the ten Navy-hosted meetings, four were organized to provide updates to the community on the radiological investigation. The nine Navy presentations at established public forums also provided updates on the radiological investigation.

Enclosed is a summary of the Navy's radiological public outreach, which includes the aforementioned meetings and additional extensive methods used to encourage public involvement. EPA and the State of California attended all outreach events to answer questions and share additional information when necessary.
